They are not your intellectual Property one must provide proof and succession of proof of intellectual property. My publication is older, how is Matt btw? Do you realize I knew when you stole my idea and my intellectual property you would try to trademark it? Do you think I would do a trademark myself without evidence that the intellectual property is mine? You have 6 days to remove all likeness of mark and copyrighted items. I saw that you are fund raising do you have your 501c3 application in yet? The world is the world is the way it is because of people like you. That would sell their soul for 10 minutes of fame and bread crumbs. May you reap what you sow.
